

Hi my name is **NAME SURNAME** I'm 19 years old and I'm Spanish and in a few months I will finish high school in my country.

My last year in high school was not very nice because I was not motivated in class. Long time, I consider a change in my life and I think in the European Voluntary Service I have my chance.

I am not sure that I will make in my life in the next years (study, work, travel, ...) so take a year to reflect is something that would help me to decide what to do.

I have been looking at your Project in EVS database and I'd love to be volunteer in your organisaton. I have lived my whole life in a small village in the Spanish Atlantic coast, I can not imagine my life without the sea around me. I love animals, fishing, but especially diving. I am a quiet person, which would cost not adapt to life in your town, enjoy the tasks of your project and that would allow me to take my time to think about my future.

My English level is not high, but in one way or another I finally will adapt to communicate in your language.

I hope you consider my candidature for the selection of volunteers for your posting project and remain at your disposal for any consultation at myemail@myemail.com

Yours sincerely,

NAME SURNAME
